- 3D transmission due to extended bandwidth
- Extremely flat cable for space-saving installation
- Integrated channel for transmitting network data with up to 100 Mbit/s
- High speed transmission of up to 10.2 Gbit/s for all image and sound standards from a bandwith of 340 MHz
- Gold-plated contacts with low contact resistance for secure signal transmission
- Triple shielded wires for reduction of external electromagnetic interference
- For transmitting compressed and uncompressed digital audio signals such as 8 PCM, Dolby Digital, DTS, True-HD, dts-hd
- For transmitting digital images up to a resolution of 4096 x 2160p
- Realistic colours thanks to perfect colour space transmission (30/36/48 bit)
- Extended colour space

General Terms and Conditions

1. General Information
We shall carry out deliveries exclusively in accordance with the following conditions. The purchasing party shall recognise these conditions of purchase as binding for all future transactions. Any agreement deviating from these terms requires our express written confirmation. No purchase conditions of the purchasing party that differ from the conditions stated here shall be considered valid unless they have been expressly accepted in writing by Hama. Hama's general terms of delivery and payment shall enter into validity no later than at the point of delivery of goods.
Customer information shall be stored and processed electronically, inasmuch as this is required for the proper conclusion of the given business transaction, in accordance with all relevant data protection regulations.

2. Quotations and Orders
The receipt of a quotation does not oblige Hama to acceptance thereof. Changes shall be made in writing.
Technical details and illustrations of articles for sale in advertising brochures and other advertising information are not binding features, but instead descriptions or labelling of our products. Factory tolerances as considered usual within the trade shall be considered binding in all cases insofar no special limits for acceptable deviation have been agreed upon. Where samples have been provided, Hama shall make every effort to deliver to the quality and specifications of the relevant sample. Slight deviations shall not form the basis for any right to complain on the part of the ordering party.

3. Prices
All prices are ex works or warehouse and subject to legally stipulated value added tax. Postage and packaging costs are itemised separately in invoices, as is transport insurance.

4. Delivery and Period of Delivery
Unless the period of delivery has been agreed upon in written form for a specific case, then delivery dates are to be understood as approximate dates to be adhered to by us if possible. Should the period of delivery be exceeded, the purchasing party may set an appropriate extension of said period, after the end of which he or she may withdraw from the contract through written declaration of his or her intent to do so.
The period of delivery shall be deemed as adhered to if the object of delivery has left the factory or notification of readiness to ship has been sent before the end of said period.
The period of delivery shall be extended in the case of eventualities in terms of industrial disputes, particularly strikes, lockouts and in the event of unpredicted obstructions beyond our control such as disruption of production, delay in the delivery of essential materials and other such disruptions as demonstrably bear on the delivery of the object to be delivered. The same applies should such eventualities affect subcontractors. The period of delivery is extended in accordance with relevant eventualities and obstructions. Should delivery become impossible or unreasonable, we are released from the responsibility of making delivery.
We are also not responsible for the aforementioned circumstances if they occur during an already existing delay. In important cases, the onset and conclusion of such obstacles shall be communicated by Hama to the ordering party at the earliest possible occasion.
The customer shall have no right to compensation for delayed delivery, provided that deliberate or gross negligence on our part cannot be demonstrated.
We are entitled to undertake partial deliveries in acceptable and reasonable quantities. Disputes over partial delivery do not entitle the purchasing party to refuse further partial deliveries.

5. Dispatch and Transfer of Risk
All deliveries take place at the expense of the customer.
The choice of route and means of transport is determined by Hama to ensure the swiftest transportation and punctual arrival to the best of its knowledge but without liability on the part of Hama.
Risk shall be transferred to the customer when the object of delivery is received by the forwarding agent, carrier or other transporting agent – including those that are employed by us – and in any case no later than when object leaves the factory or warehouse. This also applies to FOB and CIF transactions.
Goods for which notice has been given that they are ready for dispatch on the agreed upon date must be retrieved immediately. Hama is otherwise at liberty to store goods at the cost and risk of the customer as it considers fit, and to charge such goods as ex works or warehouse. The same applies if delivery cannot occur as a result of failure or suspension of transport, or of other conditions for which we cannot be held responsible. Should the ordering party delay acceptance of delivery for more than fourteen days after receiving notification of availability either intentionally or through gross negligence, Hama shall be, after an extension of a further fourteen days, entitled to withdraw from the contract or to demand compensation for breach of contract.

6. Terms of Payment
a) Creditworthiness
In the case of delayed payment and justified concerns as to the solvency and creditworthiness of a purchasing party, Hama is within its rights to demand securities or advance payment for pending deliveries and to make all claims of the financial transaction immediately payable without affecting our other rights.
b) Terms of Payment
Germany. Payment of the purchase price is to be made within the period agreed upon, with the default period being ten days from the date of invoice. Payment shall be made in cash or by transfer of funds at a discount of 2% within ten days, or within thirty days without any discount on the fixed price. Payment shall be made irrespective of receipt of goods. We give no discount for Cash On Delivery (C.O.D.) shipments. Payment by the ordering party shall be deemed to be in default if such payment has not been made within thirty days of becoming due and of receipt of the invoice. Set-off and retention rights shall only be granted to the ordering party if counterclaims are legally recognised, beyond dispute or recognised by Hama.
We only accept rediscountable bills of exchange from the Bundesbank by special arrangement and on account of payment. Bills of exchange or cheques shall, subject to receipt, be credited with the value date of the day on which Hama shall finally have access to the proceeds. All costs incurred thereby are the responsibility of the customer.
Should terms of payment not be met, interest will be levied at the actual bank interest rate for short-term loans, although never more than 5% above the base interest rate of the German Civil Code.
c) Terms of Payment, International
Only written terms of payment are valid for export trade. In all other circumstances, advance payment shall be required.

7. Retention of Title
Hama itself shall retain title of delivered goods until such time as the customer has made all payments resulting from the transaction, including those covering interest and costs, and any necessary balancing of a current account and any cheques or bills given in payment have been fully honoured. As long as payment resulting from the transaction should be due, the following shall apply:
The purchasing party is within its rights to sell, process or use goods subject to this retention of title within the normal course of business. Should the purchasing party be placed in default due to outstanding payments, all factory-condition goods in the hands of the purchasing party and/or goods still to be received shall be put at our disposal.
Should any goods to which Hama retains title be sold, all claims to service in return shall be transferred to Hama without any particular act of transfer being required for the accrual of the claim. The purchasing party may collect such claims as have been ceded to Hama, but must immediately redirect collected funds to Hama. The same also applies to all claims arising from any other service provided by Hama.
The purchasing party is not entitled to pledge goods or ceded claims or to use such goods or claims as securities. Hama shall receive immediate notification of seizures by third parties.
The purchasing party is obliged to insure goods against fire damage and theft and to furnish proof of insurance upon request.
The retention of title extends to cover new items produced by processing. In the case of connection to mixing with items that are not property of the purchasing party, Hama acquires partial ownership under articles 947/948 of the German Civil Code.
On the request of the purchasing party, Hama shall release its securities in so far as the value of our securities exceeds more than 20% of the claim on a more than temporary basis. The choice of securities to be released lies with Hama.

8. Claims for Defects and Warranty
a) Claims for Defects
Hama warrants that its goods shall be free of defects. The period of warranty commences on the day of delivery to the purchasing party and is valid for two years.
Received goods shall be checked on receipt as to proper quality. The purchasing party shall notify Hama of any determinable faults in writing within fourteen days of receipt of goods. Hidden defects shall be reported in writing as soon as they are detected, at the latest within two years after receipt of goods. In the event of justified complaints made within the appropriate period, Hama will deliver missing goods as well as rectify defects, exchange or take back goods or grant a discount to the purchasing party at Hama's discretion.
b) Warranty
Hama warranties some of its products as indicated on the relevant product warranty card. Defects of material or fabrication shall be rectified within the warranty period by repair or replacement at Hama's discretion.
The warranty does not cover claims for damages of any kind, particularly not for replacement due to consequential damage. If the device in question is still under warranty, it shall be sent by the purchasing party, accompanied by details of the defect and the dealer's receipt as proof of warranty.
c) In the case of defects caused by force or improper use, as well as in the case of intervention by the purchasing party or third parties without our express written consent, the right to restitution and the warranty become null and void.
In the case of articles subject to wear and tear, no damage resulting from use over and above appropriate norms shall constitute a defect.
d) Reimbursement of expenses pursuant to article 439 II of the German Civil Code shall be agreed with Hama on an individual basis. This only applies to purchasing parties who themselves sold the goods they had received to private individuals.
Any further liability for other reimbursement of expenses is excluded by Hama.
The purchasing party has no other rights.
e) If goods are returned to us because of claims for defects, warranties, product liability claims and the like, the sender has to bear the postage and freight charges first which will be reimbursed by us if the asserted claim has been approved.

9. Disclaimer
Regardless of the legal basis of such claims, our liability for damages is limited to
intentional acts and gross negligence, including intentional acts and gross negligence on the part of our representatives and agents. Insofar no intentional breach of duty exists, liability is limited to foreseeable damage that typically occurs.
In the case of breach of an essential cardinal duty, we assume liability for any degree of fault. However, our liability is limited here to foreseeable damage that typically occurs.
Liability due to non-accidental injury to life, limb or health is not affected. This also applies to compulsory liability according the German Product Liability Act, in the case of wilful deception or in the case of assumption of a warranty.

10. Clearing merchandise
Merchandise may only be cleared after previous agreement with us or your field sales representative.
The following products are excluded from clearance sales: all storage media, electronic devices, picture frames, software, promotional items, surplus items, slightly damaged display items/ minimum order items and discontinued products from our line.
The return of goods under all circumstances shall be freight paid and in the original packaging.
A copy of the invoice belonging to the original delivery must accompany the delivery.
Credit notes from the return of goods may only be charged against new orders of goods. Credit notes are subject to relevant deductions. Handling costs are set at 15% of the credited value of goods.

11. Applicable Law
The material law of the Federal Republic of Germany shall apply. International law on the purchase of moveable objects shall not apply, even if the purchasing party has headquarters abroad.

12. Place of Performance and Jurisdiction
The place of performance for both parts is Monheim, Bavaria, Germany.
In the event of any disputes arising from contractual conditions, all lawsuits are to be filed at the court whose jurisdiction covers our headquarters if the ordering party is a trader, a legal person under public law or a public separate estate. We also reserve the right to file lawsuits at the headquarters of the purchasing party.
